Like:

1. Lecturer is kind.
2. Everything.
3. Involves students in class through games.
4. He uses simple examples to explain concepts.
5. Prof Marks is enthusiastic & has great knowledge of the subject.
6. Practical "games" to better explain the concepts.
7. Topic, interesting applications.
8. Materials are well prepared. The course is well stuctured & enjoyable.
9. Well structured. Lectures complement the textbook very well.
10. Keep on schedule.
11. Interactive.
12. The lecturer is experienced and a good teacher. The content is highly interesting.
13. Really enthusiastic, engaging lecturer who tries very hard to ensure everyone is following. Lots of student interaction encouraged and a variety of interesting real-

life examples.

Could be improved:
1. Concentrate on syllabus.
2. Nothing.
3. Go slower through explanations of math.
4. More real-life examples to end the lesson of a particular concept.
5. Nothing. The course is great.
6. Go on faster = *too slow*?
7. Smaller class size. Maybe tutorials.
8. Encourage more participation. Tutorials to ensure we're all learning as expected.
9. Can't think of any.
14. Too rush!! = *too rushed*?
15. More time for Q & A.
16. Less overlap of the readings (many of them say the same)
